How can we
embrace learning beyond grades?

We want to be a learning society that embraces continued growth through life, so that we can fulfil our potential and pursue diverse dreams.

Why?
We must evolve to navigate a world of rapid global and technological changes.

Give every child a good start:
Nurture a sense of curiosity and a **love for learning** from young

More diverse pathways:
So that grades do not define us, and we can all **realise our full potential** in life

Beyond school, pursue lifelong learning:
Through a significant boost to **SkillsFuture**

FORWARD SG
